MAHAMOOD T M

Software Engineer | Full-Stack Developer

+91 7012043273 | mahamoodtharimooppan@gmail.com
Kannur, Kerala, India | LinkedIn: @mahamoodtharimooppan

CAREER OBJECTIVE

Motivated MCA graduate (2026) with internship, freelance, and project experience building and deploying full-stack web applications using React.js, Node.js, and Django, and a strong grounding in programming fundamentals, data structures, DBMS, and operating systems. Seeking a Software Engineer role to contribute to scalable software solutions and real-world application development.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C, C++
Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Django (REST Framework), REST APIs
Databases: MySQL, SQL, PostgreSQL, Supabase
Core CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Other: Cybersecurity Fundamentals, Network Security, Git/GitHub, Cloudflare Pages, Render
Soft Skills: Communication, Teamwork, Adaptability, Time Management, Problem-Solving

EXPERIENCE

Software Development Intern — VIndia Infrasec *Mar 2026 – Jun 2026*
Tech Stack: React.js, Node.js, Express.js, PostgreSQL, REST APIs, Git | Mysore, Karnataka (On-site)

- Contributed to an ERP system for a construction company, developing modules for Incident Management, Task Management, Drawing Management, Role-Based Access Control, and Drawing Version Control.
- Built responsive frontend components using React.js and integrated backend services built with Node.js and Express.js.
- Designed and managed PostgreSQL databases to support business workflows and data management.
- Developed and integrated REST APIs for efficient communication between application components.
- Participated in requirement analysis, debugging, testing, and implementation, collaborating with the team to deliver scalable, user-friendly enterprise applications.

PROJECTS

Supermarket Management System — Freelance (Metreo Supermarket) *Live / Deployed*
Tech Stack: React.js, JavaScript, HTML5, CSS3, Node.js, Express.js, Supabase (PostgreSQL & Auth), Git/GitHub, Cloudflare Pages, Render

- Developed and deployed a full-stack, multi-store supermarket management platform as a freelance project, with role-based access for Super Admin, Store Admin, Salesperson, Purchaser, and Inventory Person.
- Built store, employee, and product management, barcode scanning with manual entry, purchasing and order acknowledgement, inventory management, and expiry-product monitoring.
- Created a tablet-based, face-verified attendance system recording check-in and check-out timestamps across multiple sessions per day.
- Designed REST APIs with Node.js and Express.js, integrated Supabase for PostgreSQL and authentication, and deployed on Cloudflare Pages (frontend) and Render (backend).

Project Management & Employee Portal *Mar 2026 – Jun 2026*
Tech Stack: React.js, JavaScript (ES6+), HTML5, CSS3, Node.js, Express.js, PostgreSQL, REST APIs

- Built a responsive single-page application using React.js to manage projects and employee records across teams, with role-based access views.
- Implemented component-based architecture with React Hooks for state management, and integrated REST APIs for CRUD operations with error handling and loading states.

Maternal and Child Health Portal *2025*
Tech Stack: Python, Django, MySQL, HTML5, CSS3

- Developed a full-stack Django application with role-based access control for ASHA workers and Health Inspectors, including database-driven ANC tracking and automated immunization scheduling.
- Built high-risk pregnancy detection logic and a normalized MySQL schema with Django ORM for efficient data querying and reporting.

EDUCATION

Master of Computer Applications (MCA) *2024 – 2026*
Chinmaya Institute of Technology, Kannur, Kerala | CGPA: 8.3

Bachelor of Computer Science (B.Sc.) *2021 – 2024*
Mary Matha Arts & Science College, Mananthavady, Wayanad | CGPA: 7.4

Higher Secondary (12th) – Science: St. Michael's AIHS, Kannur | 85.75% **Secondary School (10th):** Chovva HSS, Kannur | 95%
